PROFESSIONAL SUMMARY

Pursuing BTECH in Electronics and Communication Engineering (completed 6th semester) with self-taught full-stack development skills including **React.js**, **Next.js**, **Express.js**, and **MongoDB** alongside Python and JavaScript. Completed a paid internship to develop a full-stack web application for East Central Railway and nominated for a trainee internship at Airports Authority of India, Patna by the College after 4th semester break. Qualified for **EY 6.0 Hackathon second round**. Led technical and event teams as Resource Head (IGNITE) and Sponsorship Head (PRAKRIDA).

WORK EXPERIENCE

Full stack developer Intern

15 May 2025 – 20 July 2025

Skylark Designer & Engineers Pvt. Ltd., Patna (9 weeks)

- Developed a full-stack web application for **TRD / Danapur Division / East Central Railway** as part of a paid internship.
- Contributed to the design and development of the application using full-stack tools.
- Collaborated with the engineering team to understand railway division requirements and deliver functional features.
- Demonstrated strong problem-solving, dedication, and a proactive learning attitude, earning commendation from the Managing Director.

Internship Trainee

23 June 2025 – July 2025

Airports Authority of India – J.P.N. Airport, Patna (4 weeks)

- Completed a 4-week training program at an international airport, gaining exposure of flight operations, safety protocols and coordination among different departments/sections.
- Observed and learned about the functioning of airport authority systems, including basic IT infrastructure used in passenger and baggage handling.
- Developed professional discipline, communication, and teamwork skills in a high-stakes government environment.

SKILLS

Technical Skills

Frontend: React.js, Next.js, HTML, CSS, JavaScript

Backend: Express.js, Node.js

Databases: MongoDB, MySQL

Programming Languages: JavaScript, Python, Verilog (basic)

Tools & APIs: REST APIs, Full-stack development tools, Xilinx FPGA tools

Python Modules: pytz, PyPDF2

Other: Cloud Computing Fundamentals (NPTEL)

Soft Skills

- Meticulous planning
- Leadership & Team Management
- Problem-Solving & Analytical Thinking
- Crystal-clear Communication
- Power of expression
- Collaboration
- Excellent Adaptability to adjust in any atmosphere
- Good endurance to withstand tough working conditions
- Event Management & raising Sponsorship

EDUCATION

Bachelor of Technology (B.Tech) in Electronics and Communication – *6 Semesters Completed*

Birla Institute of Technology MESRA, off-campus Patna

CGPA: 7.5/10

Class 12th (CBSE 2022-2023)

St. Karen's Secondary School, Patna – **Percentage:** 90.2%

Class 10th (CBSE 2020-2021)

St. Karen's Secondary School, Patna – **Percentage:** 91.1%

PROJECTS

TextUtils – Text Manipulation Utility Web App – React.js, JavaScript, CSS

- Developed a feature-rich text manipulation tool enabling users to transform and analyze their text input.
- Implemented various case conversion functions including uppercase, lowercase, camel case, pascal case, and snake case.
- Added text utilities such as copy, clear, remove extra spaces, and text-to-speech functionality for enhanced usability.
- Integrated a text summary module displaying word count, character count, and estimated reading time.
- Built a responsive user interface with a live preview section and a toggle for dark mode.

Rock-Paper-Scissors Game – HTML, CSS, JavaScript

- Built an interactive game where the user plays against the computer. Developed game logic using JavaScript and styled the interface with CSS.

Tic-Tac-Toe Game – HTML, CSS, JavaScript (*June 2019 – May 2021*)

- Built a two-player game allowing users to play against each other. Implemented game logic with JavaScript and styled the page using CSS.

Currency Converter Application – HTML, CSS, JavaScript

- Built an application that converts one currency to another using a free online currency API. Developed logic with JavaScript and designed a responsive UI.

Computer Speaker Application – Python

- Created a program that speaks user input through the computer speaker using the pyttsx3 module.

PDF Merger Application – Python

- Built a program that merges two user-provided PDF files using the pypdf2 module.

Weather Application – Python

- Developed a program that fetches weather information using a free API and integrates text-to-speech to announce the weather.

FPGA Implementation of Median Filter for Image Denoising using Xilinx (*Minor Project – Ongoing, basic level*)

- Gained foundational knowledge of FPGA-based image processing by implementing a median filter to remove salt-and-pepper noise with help of online resources and research papers. Simulated design using Xilinx tools.

ACHIEVEMENTS

- Physics topper of the school in Class 12th Board exams.
- Secured **A+ Grade** in English, Physics, and Mathematics in Class 12th Board exams.
- Secured **96 marks** in Class 10th and **90 marks** in Class 12th in **COMPUTER SCIENCE**.
- Secured an SGPA of **8.6** in the 3rd semester of ECE.
- **Qualified for the second round** of the **EY 6.0 HACKATHON** (held all over India).
- As Sponsorship Head of PRAKRIDA (largest annual inter-college sports fest of BIT Patna), led my team to secure sponsorship funds exceeding the combined total of the previous two years.
- As Event Management Head of the college eSports Club, successfully managed venue setup and participant coordination for XORDIUM 4.0, ensuring smooth execution.
- As Resource Head of the college technical club IGNITE, efficiently handled logistics and resource allocation for XORDIUM 4.0, optimizing utilization.

CERTIFICATIONS & ONLINE COURSES

- Online Python Course – w3schools.com (2022)
- Online JavaScript Course – apnacollege.in (2024)
- Online Cloud Computing Course – SWAYAM NPTEL (20 Jan – 3 May 2025)

HOBBIES & INTERESTS

- Play football, cricket and chess.
- Participate in in-house tournaments.
- Keenest to learn new things.
